

This year has seen Vale Furnishers expand by opening a second showroom in the picturesque craft town of Farnham, Surrey. The additional store space has allowed Vale Furnishers to represent an extensive catalogue of brands alongside hand-picked accessories, artwork, lighting, and

soft furnishings to demonstrate how you can introduce the most current interior trends to your own home.

This Winter, Vale Furnishers are putting an emphasis on texture; by using contrasting materials you can easily add drama to any interior space. Metallic accessories are the hottest trend on the high street this season. We've introduced these bronze bowls and lighting as the simplicity of the materials complement the honesty of exposed surfaces, such as the brickwork.

Finally, the introduction of contemporary artwork adds both interest and colour, whilst the 'Vegaz' letters provide your living space with a unique focal point, enabling you to bring instant drama to your living space.
